Basée sur la Setlist des concerts FTISLAND X In Seoul qui ont eu lieu cet été (26&27/08/2017), voici les chansons qui seront jouées probablement à Paris lors du FTISLAND X Tour in Europe. (Notez que ce n'est qu'une supposition et que nous ne savons pas si la setlist sera modifiée pour la tournée européenne ou non).

Concernant un des points des projets, apprenez par coeur 'Tree' 'il vous plaît ! C'est la dernière chanson et avec les voix des Pri elle sera encore plus émouvante qu'elle ne l'est déjà !

[English]

You can find here a setlist of songs which FTISLAND will maybe play during the concert in Paris. Based on the setlist of FTISLAND X In Seoul this summer (17/08/26&27)

Please note that we are not 100% sure if they will keep the setlist like this for Europe Tour or if they will change it. About one of our projects, please learn by heart 'Tree' ! It should be the last song and with all Primadonna voices it will be a emotionnal ending.

WIND ENGLISH TRANS

Still, why don't you know
Still, I miss you

It touched our memories when we loved
So it brings a tear to my eye
You're already walking far away from me
So probably I can't catch you

I need you I love you
My broken heart calls you
I love you always

Where are you? You left everything to me
I'm looking for your everything

Sometimes think about me
Even if I'm not there
I'll find you and be there
After wiping the tears

I will go I will find
I'll meet you someday
Even if my body is broken down by a cold wind
Always

I'll tell in front of you who left me
Please come back, I won't let you go, no
Now smile, you will be happy
We'll be forever, we won't cry again

I need you I love you
My broken heart calls you
I love you always

I will go I will find (ah)
Someday we will meet again (once we meet again)
Even if my body is broken down by a cold wind

I HOPE ENGLISH TRANS

A day passed and a month passed
but I did not hear from you.
My tears fall and my heart burns.
This is not it, it's only temporary.
This is not gonna be it, this is not gonna be it.
This is not gonna be it. Don't try to cheer me up.
The empty space you left only gets bigger.

I see you again and you, you are my love.
I see you hundred times and I, I am your love.
You are my match made in heaven.
You took the wrong path, that's all.
Even if I am born again, I only want you.
Even if I love again, I only want you.
You will come back, you will come back.
Because without you, there is no me.

You said you love me and where did you leave abandoning me?
My two hands that you held and our promise
how could you leave throwing me away and breaking it?

This must be a dream, this must be a dream.
This must be a dream, don't fool me.
I hate how I'm left alone.

I see you again and you, you are my love.
I see you hundred times and I, I am your love.
You are my match made in heaven.
You took the wrong path, that's all.
Even if I am born again, I only want you.
Even if I love again, I only want you.
You will come back, you will come back.
Because without you, there is no me.

I thought all of this was a nightmare.
Ah~ I just want to wake up from this dream.

When I open my eyes tomorrow
I hope everything is nothing but a dream oh
I hope everything is nothing more than a realistic dream.
I hope for you. I still want you.

Even when I look back again, you, you're my love
Even if I look (at you) thousands of times, I'm, I'm your love
Approved by the heavens, you're my love
We've been separated for a while, that's all

Even when I see other girls, I only want you
Even if I love another, I only want you
You will come back, you will to come back
because without me, there is no you.

(YES LETS GO) Every night, I pray, not for my happiness but for misfortune
For your sake, not for me, so I can't love another
You are the only one for me,
You are my heart's one desire.
I'm not going to change. Even if I'm born again, I only want you.

Even if I'm born again, I only want you.
Even if I love again, I only want you
You will come back, you will come back.
Because without you, there is no me.

LOVE SICK ENGLISH TRANS

When i miss you, I close my eyes
And I can see that person better
I try to forget and erase
But i get reminded of that person more

I told myself a hurtful lie
That that person would come back
That person never said like that
But just waiting is what I only can do

The sin of loving that person a lot
The sin of loving you a lot
Because of you, and because of sin
I suffer from waiting

I told myself a hurtful lie
That that person would come back
That person never said like that
But just waiting is what I only can do

The sin of loving that person a lot
The sin of loving you a lot
Because of you, and because of sin
I have to wait

You left far away from me
You're always bad to me
You only made me cry
I always suffer alone

The sin of loving you a lot
Because of you, and because of sin
I have to wait
The sin of loving you more than you love me
The sin of missing you a lot
Because of you, and because of sin
I suffer from tears

LIFE ENGLISH TRANS

When you're standing in front of a split road, it's okay to look back
As you see yourself getting farther ahead, you can point out where to go
The setting sun and the image of you getting smaller -
Gather your hands and wait for the day it will be shone upon again

I don't want to remain as an ambiguous existence
Why do I lie and deceive myself everyday like a fool?
Look carefully, this isn't me - someone please tell me
I want my true self - my life

My life

We are also people who dream of our future
One by one, my future is getting fulfilled
But there were days when I wanted to rip it apart and throw it out
But I can't just give up when I came all the way here

I crazily shout, asking for the missed miracles to come back
But nothing returns

Temptations that I can't stop or forget
I will go back to them everyday so why am I standing at the end of this road?
Don't worry, look at me right now - even if you become filled with scars
You won't change just like how it is now

If you can't go back to the past
Cherish this moment right now everyday
So you won't be embarrassed with yourself that you always protect

I don't want to remain as an ambiguous existence
Why do I lie and deceive myself everyday like a fool?
Look carefully, this isn't me - someone please tell me
I want my true self - my life

Hongki:

My heart stops, my breathing dies, you're leaving
My heart is freezing, I love you, I was happy
I was born as your man so I loved you endlessly
That's it, I try to resist the urge to cry

Seunghyun:

The raindrops soak my whole body
I force myself again, look up and look at the sky
The rain enters my eyes as I think of you
And it replaces the tears I have been holding in

Hongki:

I loved you 'til madness and I was so very happy
The love memories given to me send you away

Hongki:

Goodbye my love love love
Take care my love love love
Even if the tears filling up soak my whole body

Now good bye good bye good bye
Leave me and please be happy
One step, one step, you're going farther away

Seunghyun:

Silently I fill up a glass of alcohol
As I hardly hold it with my hands, i let out a sigh
I drink one glass
As I think of you
I also swallow the tears I have been holding in

Hongki:

I loved you 'til madness and I was so very happy
The love memories given to me send you away

Hongki:

Goodbye my love love love
Take care my love love love
Even if the tears filling up soak my whole body
Now good bye good bye good bye
Leave me and please be happy
One step, one step, you're going farther away

Hongki:

My heart is cold, I didn't know love
Thank you, really. I now understand that this is what love is
My heart stops, my breathing dies, you're leaving

Hongki:

MEMORY ENGLISH TRANS

Yeah, even if I erase everything that reminds me of you
I can't throw away the memories
Even though our drama up until now has ended
Love is painful
The watch you gave me
wakes me up every day

Once again,
I can't go to sleep, oh baby
Yeah, to me, love is pain,
I'm hurt by love
I can't move a single step so
I can't hold onto it
but I can't let go of it, it's love
I am lost, I hate love

In my memory, I will erase your voice
In my memory, I will even erase your name
I think I have been in pain enough
Every time, I call out to you and break down

I thought things would be okay
once the sun rose and set and the seasons changed
The spot you were in is so deep that it
won't close up Your hair pins left on the sofa keep poking me
It hurts so I can't even smile, oh baby

Yeah, to me, love is pain,
I'm hurt by love
I can't move a single step so
I can't hold onto it
but I can't let go of it, it's love
I am lost, I hate love

In my memory, I will erase your voice
In my memory, I will even erase your name
I think I have been in pain enough
Every time, I call out to you and break down

Because there was so much I didn't do for you
There were so many times I was bad to you
I guess I'm receiving what I gave to you
There was so many things I am sorry for
There are so many things I should be criticized for I guess I can't forget

(In my memory, I will erase your voice In
my memory, I will even erase your name)

In my memory, your heavy tears
In my memory, the memory of holding you I think I have erased
you enough But I can't let go of you
and I break dow

Underneath the memories, your smile used to be radiant
Here I'm front of you
It's no longer dazzling
You were in my
You were in my my mind
I'm disappearing
You were in my mind

My friend would call me and he would tell me many things
Those were the days I kept believing in you
I pushed my doubts aside and I would wait for you

Pretty memories, they missed me
Suddenly I have doubts of you in my heart
I lift up my feet and start wandering, looking for you

I don't want to say goodbye
I don't want to say bye-bye
As I'm stopped in my tracks
You were in my mind

Underneath the memories, your smile used to be radiant
Here I'm front of you
It's no longer dazzling
You were in my
You were in my my mind
You were in my
I'm disappearing
You were in my mind

I wander the streets and I wonder about you
It's no use, you don't know how I feel
Even though I sigh some cigarette smoke

For a moment, I had memories of you in my head
My head hurts the more I think about you
Because if it ends this way, I'm afraid I can't see you again

I don't want to say good bye
I don't want to say bye-bye
As I'm stopped in my tracks
You were in my mind

전부 사라져 이제는 더 이상 빛나지 않아
You were in my

Trouble's coming, Trouble making
Right here, waiting
I don't care who you are

Underrated, Over hated
Look, we made it
Up against all odds

Oh, I feel
They try to hold me down
I need to let them know

So I could take you right to the stars
Count it off at 1234
Burn burn burn it you know
Count it off at 1234
Living your life out loud
Give me the love, give me the pain
Give me the sun, give me the rain
Show me the days, show me the nights
Take you on the trip of your life

Foolish finest, Shining brightest
Look, we got this, Don't you worry my dear

My life, don't care, My way, I swear
Way too out there, You just gotta let go

Oh, I feel
They try to hold me down
I need to let them know

So I could take you right to the stars
Count it off at 1234
Burn burn burn it you know
Count it off at 1234
Living your life out loud
Give me the love, give me the pain
Give me the sun, give me the rain
Show me the days, show me the nights
Take you on the trip of your life

Are you ready to go ?
Taking the long way through the night... It's all right
Take it in it's ok
Nothing more to say
Ready to go (x2)

I could take you right to the stars

OUT OF LOVE ENGLISH TRANS

I just fell out of love
You were my all
Now it's all gone

I'm moving to brand new
On to the next you
Sorry but there's no second chance
Don't hesitate
It's true that my tears are dried up

No no don't appear in front of me
Go away will you disappear
No way I will smile
I will never find you

Sick of all the lies
Crashing down we go

I just fell out of love
You were my all
Now it's all gone
Now I erase you
So I can live and breathe
I will find another love
And become happier

I'm sick and I'm tired
Going nowhere
Sorry but there's no me and you
I'm going crazy
I hate myself for becoming memories in the past

No no don't appear in front of me
Go away will you disappear
No way I will smile
I will never find you

Sick of all the lies
You'll just do it again
Sick of all the lies
Crashing down we go

I just fell out of love
You were my all
Now it's all gone
Now I erase you
So I can live and breathe
I will find another love
And become happier

I don't care anymore
You had my heart
You had my soul
Now erase me
I will erase you too
I will find another love
And become happier

I just fell out of love
You were my all
Now it's all gone
Now I erase you
So I can live and breathe
I will find another love
And become happier

TAKE ME NOW

Before I lose my mind
Before I'm lost in lies

I am afraid of everyone
I won't approach them

Tell me where to go
I move my body
Tell me where to go
I keep disappearing

No matter how much I shout, I can't see
No matter how much I shout, there is no answer

Where is the truth?
I'm trying to find my
I'm trying to find my way

I don't need you
Sometimes I'm crazy
Sometimes I'm lost
But I will find an answer

Take me now
Trust me now
Break me down

Take me now
Trust me now
Break me down

Until I'm gone and free
Until I finally see

I feel that
It's not far away

Tell me where to go
I move my body
Tell me where to go
I keep disappearing

I can't stop no matter how long it takes
I can't stop no matter what anyone says

Where is the truth?
I'm trying to find my
I'm trying to find my way

I don't need you

Sometimes I'm crazy
Sometimes I'm lost
But I will find an answer

Take me now
Trust me now
Break me down

Take me now
Trust me now
Break me down

Where is the truth?
I'm trying to find my
I'm trying to find my way

I don't need you
Sometimes I'm crazy
Sometimes I'm lost
But I will find an answer

Where is the truth?
I'm trying to find my
I'm trying to find my way

I don't need you
Sometimes I'm crazy
Sometimes I'm lost
But I will find an answer

Take me now

ON MY WAY ENGLISH TRANS

I feel like you are next to me (You're still in my eyes)
You are watching me from deep inside my memory (I'm still in your eyes)
Our memories keep me smiling without a word
The path before our eyes (Go on my way) We gotta go without a doubt
Whenever you get lost (So on your way) Don't forget and go again
Even when we take a different path, don't forget I'm still in your heart
Don't stand alone in this big world. We are always together
The path before our eyes (Go on my way) We gotta go without a doubt
Whenever you get lost (So on your way) Don't forget and walk again
We can't go back to the time when we got hurt
But when we reach the destination that we promised, we'll be together
Countless doubts and pain before many paths,
Even when I blame myself
Look forward. Shining brightly This your way Don't forget and get up again
Many people and much faith make us stronger
We've done well
Look forward, for our dreams My own way smile and walk again
